ARTWORK

Screenprinting and embroidery

- To produce finished artwork for your screenprint we require either an Adobe Illustrator (AI) (up to version CS4), EPS, Corel Draw (CDR) (up to version 12) or Adobe PDF.
- All text should be converted to outlines (curves).
- Please specify Pantone PMS colours for logos etc. wherever possible.
- In certain cases, a high quality picture (jpg or tif) file will be satisfactory to produce finished artwork for printing or embroidery.
- When colour is critical, but PMS colours can't be supplied, always supply us with hard copy of your artwork for colour matching.

customer artwork will be assessed prior to quotation stage. If modifications are required, an artwork charge will be included.
